

REACH – Letter of Intent

Stockmeier Urethanes GmbH & Co. KG is a supplier of “preparations” made of “substances” according to the wording of REACH.

We declare to be in close contact with our raw material suppliers to ensure the availability of our products if they are subjected to REACH.

According to the actual feed back of our suppliers we assume all substances for our raw materials have been **preregistered**

As those raw materials are standard products it is most likely that they are going to be **registered** and thus our products can be supplied in future in the accustomed quality.

A legal warranty cannot be deducted from the above for insurance reasons.

Statement to SVHC (Candidate list)

On publishing the candidate list manufacturers are obliged to disclose a candidate substance if the content is higher than 0.1%.

Thus the Material Safety Data Sheet stands out for the assumptions that

- If a candidate substance is not mentioned it is not included with a content of more than 0.1 %.
- If a candidate substance is mentioned also the content percentage has to be disclosed so that the buyer can inform his customers about the presence of candidate substances of > 0.1 %

Specifications on candidate substance can be found in the Material Safety Data Sheet under paragraph 3 and 15 resp.
